

S&S ACTIVEWEAR PROMOSTANDARDS DEVELOPER GUIDE

This guide is meant as a starting point for those interested integrating with the S&S Activewear PromoStandards interface. It is not meant as an end solution; the examples provided are just examples, not specifically production ready code. This guide will follow the documentation site found at promostandards.org/service/overview and is intended as a complement to the official documentation.

Introduction

The S&S Activewear supports the PromoStandards interface. The list of supported versions can be found at promostandards.org/endpoint/overview/company/76/. The WSDL URLs can be found at promostandards.ssactivewear.com.

To access PromoStandards, you will need your username and API key. Your username is your account number, and your API key can be obtained by emailing api@ssactivewear.com. When sending the email, please include your account number in the subject line to ensure quick processing.

If you ever have questions regarding PromoStandards, please feel free to email us at api@ssactivewear.com.

PROMOSTANDARDS DEVELOPER GUIDE

Adding Products to Your Site

Inventory Service 2.0.0

It is recommended to use Inventory Service 2.0.0 in order to pull inventory by warehouse. The below XML is a basic product call filtering by styles using "B" + the part number of the style. (S&S also supports Inventory Service 1.2.1 however we recommend using 2.0.0.)

Sample 2.0.0 Request:

```
<soapenv:Header/>
<soapenv:Body>
  <ns:GetInventoryLevelsRequest>
    <shar:wsVersion>2.0.0</shar:wsVersion>
    <shar:id>{Account Number}</shar:id>
    <shar:password>{API Key}</shar:password>
    <shar:productId>B00760</shar:productId>
  </ns:GetInventoryLevelsRequest>
</soapenv:Body>
```

Sample 2.0.0 Response:

```
<s:Envelope
  xmlns:s="http://schemas.xmlsoap.org/soap/envelope/">
  <s:Body
    xmlns:xsi="http://www.w3.org/2001/XMLSchema-instance"
    xmlns:xsd="http://www.w3.org/2001/XMLSchema">

How to Place an Order

Purchase Order

1. Order Type must be "Blank".
 - a. We do not accept any other types
2. orderNumber will be PO number for the order.
3. Must include OrderContactArray of type "Order"
 - a. This contact will receive all relevant order emails.
 - b. Must include an email.
4. Only one shipment per order.
 - a. This will be applied to all warehouses the order is shipping from.
5. Linetype must be set to "New" for all lines.
6. All qty's must be submitted as EA for unit of measure
7. Accepted shipping services:
 - a. UPS GROUND
 - b. UPS NEXTDAY
 - c. UPS NEXTDAYEARLYAM
 - d. UPS NEXTDAYSAVER
 - e. UPS 2DAY
 - f. UPS 2DAYAM
 - g. UPS 3DAY
 - h. UPS SUREPOST
 - i. UPS SATURDAY
 - j. UPS SATURDAYEARLY
 - k. FEDEX GROUND
 - l. FEDEX 2DAY
 - m. FEDEX NEXTDAY
 - n. FEDEX NEXTDAYPRIORITY
 - o. WILLCALL
 - p. MESSENGER
 - q. MISC CHEAPEST
8. ThirdPartyAccount
 - a. accountNumber
 - i. S&S will use this number when available. Must match the shipping carrier provided.
 - ii. Note: S&S will not use accountNumber with Express freight services.
9. TransactionID in order response will be the order number.

How to Get Updates on Your Order

Order Status

Our order status types are Order Received, Order Confirmed, General Hold, Credit Hold, In Production, Complete and Canceled. Calls should be made using Invoice number as an order may be split over multiple buildings.

```
<soapenv:Header/>
<soapenv:Body>
  <ns:GetOrderStatusDetailsRequest>
    <ns:wsVersion>1.0.0</ns:wsVersion>
    <shar:id>{Account Number}</shar:id>
    <shar:password>{API Key}</shar:password>
    <ns:queryType>2</ns:queryType>
    <ns:referenceNumber>12345678</ns:referenceNumber>
  </ns:GetOrderStatusDetailsRequest>
</soapenv:Body>
```

Example Response:

```
<s:Envelope xmlns:s="http://schemas.xmlsoap.org/soap/envelope/">
  <s:Body xmlns:xsi="http://www.w3.org/2001/XMLSchema-instance"

Creating Invoices and ASNs

Invoices

Invoices are only available after an order has been completed by a warehouse. If not pulling a specific invoices it's best to use the current date to pull back orders that have been invoiced.

Invoice Request:

```
<soapenv:Header/>
<soapenv:Body>
  <ns:GetInvoicesRequest>
    <shar:wsVersion>1.0.0</shar:wsVersion>
    <shar:id>{Account Number}</shar:id>
    <shar:password>{API Key}</shar:password>
    <shar:queryType>2</shar:queryType>
    <shar:referenceNumber>12345678</shar:referenceNumber>
  </ns:GetInvoicesRequest>
</soapenv:Body>
```

Invoice Response:

```

Using S&S Website Images

The Image URLs returned from the Promostandards MediaContent service are meant to be used for download purposes only.

Image names ending in "fs," "fm," and "fl" refer to the size of the image; small (130x163), medium (300x375), and large (1000x1250), respectively.

By adjusting this, you can pull up the desired size of the image, though not all images have various sizes available.

Note that all medium sized images (fm) can be pulled in bulk from our DataLibrary. Alternatively, all images can be pulled from our FTP site at files.ssactivewear.com. Please email api@ssactivewear.com to request FTP access if needed.

Images

Image URLs can be obtained through the media content endpoint. This will also include accompanying documents such as safety information and specification sheets. For png images simply swap ".jpg" for ".png" in the image URL returned.

```
